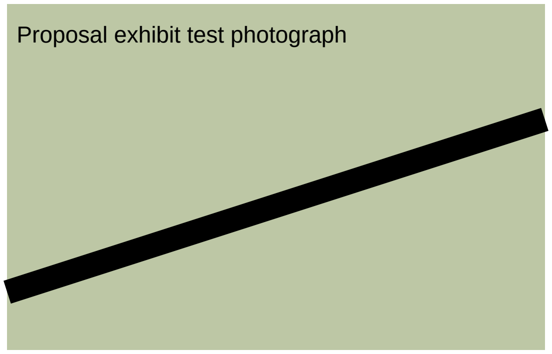
## Exhibit A Site Conditions

### Photo 1



Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area. Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area. Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area. Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area. Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area. Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area. Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area. Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area. Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area. Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area. Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area. Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area. Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area. Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area. Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area. Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area. Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area. Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area. Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area. Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area. Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area. Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area. Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area. Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area. Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area. Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area. Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area. Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area. Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area. Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area. Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area. Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area. Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area. Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area. Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area. Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area. Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area. Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area. Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area. Observed existing surface and proposed repair area.
Observed existing surface and proposed repair area. Observed existing surface and proposed repair area.
